What lands will not ordinarily be available. 2. The following lands will not ordinarily be available under these rules:—

(c.)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as would, in the opinion of the local Government, render it impolitic or unadvisable to grant such lands to any other person or persons for the purpose of tea cultivation.

(d.)—Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed, or shall be kept in repair, from public funds, and that it be borne on the list of the district roads of the district within which the land above mentioned lies.

(e.)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

4. Every lot applied for shall be compact and capable of being enclosed in a ring fence; and if any part of the land touches a public road or navigable river, the length of such road or river frontage shall not exceed one half the breadth of the lot applied for.

5. No application shall be received in respect of an area greater than 800 acres; and not more than this quantity of land shall be granted under these rules to any one lessee.

6. On receipt of an application, and after satisfying himself as far as lies in his power that the requirements of the rules have been complied with, the Deputy Commissioner shall record a proceeding to the above effect, calling upon the applicant or his authorized agent to deposit such a sum as the Deputy Commissioner shall deem to be necessary to cover the cost of the survey and demarcation to be made as hereinafter provided. Such sum shall ordinarily be calculated at the rate of 8 annas per acre of the total quantity of land applied for. But if the rate of 8 annas an acre be found insufficient, the applicant shall be required to deposit such further sum as may be needed to cover the actual cost of survey. On the other hand, if the actual cost of survey falls short of the sum deposited, the applicant shall be entitled to a refund of the excess.

7. On receipt of the sum payable under the preceding rule, and of an agreement, signed by the applicant or by his authorized agent, to pay such further sum as may be required for the purposes above mentioned, the Deputy Commissioner shall record an order appointing a tehsildar or other officer to visit the land, and to make full and detailed inquiries into its condition and circumstances.

information as may seem to him to be necessary.

10. On completion of his inquiry, the officer making it shall record the result thereof and submit a report for the orders of the Deputy Commissioner. If the Deputy Commissioner, after considering the report, and after calling for such further explanations, oral or written, as he may deem necessary, shall be of opinion that the land applied for cannot be granted under the rules, and should not therefore be surveyed, he will record an order to that effect. Such order shall be appealable to the Commissioner of the Division within which the land applied for is situated, and his order shall be final. The appeal must be filed within one month from the date of the receipt, by the applicant or authorised agent, of a copy of the order appealed against.

11. If the Deputy Commissioner decide that the land applied for can be granted under the rules, and should therefore be surveyed, he shall record an order to that effect.

12. If the Deputy Commissioner thinks it necessary to remove from off such land any occupants or others not having rights such as those contemplated in Rule 2 (c), or whom the Deputy Commissioner considers should be removed for the good of the state, he shall submit a full report of the circumstances for the orders of the Commissioner, stating in detail the grounds of his recommendation, and the compensation, if any, he proposes to pay them. The orders of the Commissioner on this point shall be final.

13. If any claim or objection is preferred under Act XXIII of 1863, the Deputy Commissioner shall proceed to dispose of the same in accordance with the provisions of the said Act.

14. The Deputy Commissioner shall then proceed to appoint a Surveyor and such other establishment as he may deem to be requisite for the purpose of making an accurate chain and compass survey and map of the land applied for.

15. The officer who made the inquiry provided for by Rule 6 shall, on receipt of an order to that effect from the Deputy Commissioner, proceed to point out to the Surveyor the boundaries of the land applied for and such prominent features in it as may be useful for the purposes of the survey, and which should, in his opinion, be entered in the draft under the rules as hereinafter provided. Such boundaries and other features as above mentioned shall be clearly marked and defined by the tahsildar in presence of the Surveyor, and the latter should be furnished with a list of them signed by the tahsildar.

16. The Surveyor shall then proceed to make the survey and fix the necessary boundary marks, which shall be such as a masonry platform at each point where more than two lots or patches of waste on other properties meet, and large stones or mounds at every angle and at every 100 yards of the boundary line between such platforms or other marks. Before sending in his report, the Surveyor should be careful to see that all marks required by the rules have been duly erected, and are in good order and preservation. The Surveyor shall prepare a map showing—

(a.)—All natural features of the country lying within the boundaries as fixed by the officer who made the inquiry under Rule 6, e.g. bheels, streams, forest clumps, &c.

(b.)—Such features of the country lying outside the boundary of the land to be surveyed as may serve to identify the latter and connect it with the revenue survey or other existing map.

17. The map shall ordinarily be on a scale of 16 inches to the mile. If possible, the Surveyor's field-book shall be copied at the back of it. If not, a copy of the field-book shall be attached to or accompany the map. If the map be made originally in the vernacular, the Deputy Commissioner shall cause it to be translated into English.

18. The whole cost of survey, including the expenses of cutting jungle, erecting boundary and other marks, &c., shall be borne by the applicant, and the Deputy Commissioner shall advance, from the funds deposited by the applicant, for the purpose such sums as shall from time to time be required. A full account of such sums shall be rendered to the Deputy Commissioner by the party receiving them, and such accounts shall be open to the inspection of the applicant at such time and place as the Deputy Commissioner may appoint.

19. On the map being completed, it shall be checked by an officer appointed by the Deputy Commissioner. If found to be incorrect, it shall be amended by the Surveyor in conjunction with the officer above mentioned. If found to be correct, it shall be laid before the Deputy Commissioner with the report of the officer who made the preliminary inquiry under Rule 6, and with all other papers connected with the case.

20. The Deputy Commissioner shall then proceed to consider the application. A date for this purpose shall be previously fixed by him, and due notice of it shall be given to the applicant or to his authorised agent.

21. It shall be competent to the Deputy Commissioner, after considering the papers of the case and making such further inquiries as he may deem necessary, either to reject or to comply with the application as originally presented or as amended by the applicant, with the consent of the Deputy Commissioner.

22. If the Deputy Commissioner rejects the application, he shall record an order in writing to that effect, with the grounds of his decision. A copy of such order, and of the grounds on which it is based, shall, on application made in writing by the applicant or by his authorised agent, be granted. An appeal against such order shall lie to the Commissioner of the Division in which the land applied for is situated, if made within 30 days of the date of the receipt of a copy of such order by the applicant or his authorised agent.

23. If the Deputy Commissioner grant the application, he shall grant the applicant a lease in form A of the appendix, and shall call upon him to execute a counterpart thereof, and to mark out the land leased by a continuous trench, or in such other manner as the Deputy Commissioner may direct.

24. Whenever, after receipt of an application, as provided for in Rule 3, and after making such inquiries as he may deem necessary, the Deputy Commissioner shall be of opinion that there is no *prima facie* objection whatever to the grant under the rules of the land applied for, he may put the applicant in preliminary possession of an area not exceeding one-eighth of the estimated area of the land applied for, with the object of enabling the applicant to make preparations for commencing cultivation and getting the land in order. Provided that the applicant, before obtaining such preliminary possession, shall have erected such boundary marks as the Deputy Commissioner may direct, and that the amount of all estimated charges incurred in connection with such preliminary occupation shall have been deposited by the applicant.

25. The order for, and conditions of such preliminary occupation, shall be in the form B in the appendix, and shall be addressed to the tahsildar or other officer appointed by the Deputy Commissioner. A copy of the order shall be delivered to the applicant, who shall, after receipt of occupation, acknowledge such receipt by signing a copy of the order and depositing it with the Deputy Commissioner.

The lessee shall, within six weeks after the receipt of an order to that effect from the Deputy Commissioner of the district within which the lands lie, make such boundary lines and marks as the Deputy Commissioner may require to be made. The lessee shall keep all such boundary lines and marks, and all base marks which may be constructed under these rules, in good order and repair, and clear of jungle. If any boundary line or mark be not made, the construction of which may have been ordered by the Deputy Commissioner as provided in the rules, it shall be competent to the Deputy Commissioner to cause it to be made, and to recover the cost thereof as an arrear of rent; or he may call upon the lessee to make it within a specified time on pain of forfeiture of the lease.

Any land covered by the lease which may at any time be required for a public purpose, may be taken up by Government free of cost on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provision of the law in force for the time being for the acquisition of land for public purposes.

All rights to minerals or quarries of all kinds are reserved to Government.

No right of fishery, and no right to dam up or otherwise obstruct the passage of any stream, is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

All sisoo, sal, and chelownee trees of a girth of over three feet, at a distance of three feet from the ground, and all such khair trees as may be fit to cut, are to be paid for by the lessee at the rates at which they may be valued by the Forest Department. All other trees may be

disposed of by the lessee. The four kinds of trees above specified shall be counted and paid for previous to possession being given.

The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made. Provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If, after such inspection, it should appear to the Deputy Commissioner that 15 per cent. of the total area held under the lease has been brought under cultivation by means of good husbandry, and actually bears tea plants, the lessee shall be entitled to the renewal of the lease for a further period of twenty years, and to renewals for similar periods in perpetuity, subject to the following conditions:—

(a.)—The rent to be paid shall be fixed by the Deputy Commissioner on the order of Government on each occasion of renewal.

(b.)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferee to the Deputy Commissioner at the time of transfer, together with a fee of 4 annas per acre of the area leased.

(c.)—In all other respects, the conditions of the renewed lease shall be the same as those of the preliminary lease.

The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

If before the expiration of this preliminary lease no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements may have been made by the Deputy Commissioner.

## MARINE NOTICE.

A second class spire wooden buoy with pole and basket, painted in red and white rings, has been laid E. by S. about 7 miles from the Kannaka buoy in 14 fathoms low water, and marked P. P. as the Point Palmura Reef buoy. The buoy is in latitude north  $20^{\circ} 48' 30''$ , longitude east  $87^{\circ} 44' 10''$ .

The Kannaka buoy is now a first class wooden spire buoy with bell and basket, instead of a second class buoy with basket only.

The H. buoy of the Dhamrah river has been moved 700 yards to the N.E. on account of an extension of the sand in its vicinity.

The boat track across the Chandipal bar, Dhamra river, has been marked by two bar buoys, one red and one black, in lieu of the former single fairway buoy. The track is very narrow, with from 7 to 8 feet low water in it.

The C and D buoys lost in the cyclone have been relaid.

All buoys at the entrance to the Dhamra have been overhauled and put in good order.

## MARINE NOTICE.

A second class spire wooden buoy with pole and basket, painted in red and white rings, has been laid E. by N. about 7 miles from the Kannaka buoy in 14 fathoms low water, and marked P. P. as the Point Palmiras Reef buoy. The buoy is in latitude north  $20^{\circ} 47' 30''$ , longitude east  $87^{\circ} 14' 10''$ .

The Kanna buoy is now a first class wooden spire buoy with bell and basket, instead of a second class buoy with basket only.

The H. buoy of the Dhamrah river has been moved 700 yards to the N.E. on account of an extension of the sand in its vicinity.

The best track across the Ehandipal bar, Dhamra river, has been marked by two bar buoys, one red and one black, in lieu of the former single fairway buoy. The track is very narrow, with from 7 to 8 feet low water in it.

The C and D buoys lost in the cyclone have been relaid.

All buoys at the entrance to the Dhamrah have been overhauled and put in good order.
